The two sepia-toned photos on the cover are of UW's first graduate, Clara McCarty (1876) and Aubrey Levy, who organized the first UW orchestra in 1899.

Photo on Page 1:

The four Ionic columns in Sylvan Grove. These columns originally graced the portico of the University's first building, which was erected in 1861 on the territorial site in downtown Seattle. They were salvaged when the building was torn down and installed on the new campus (very near the intersection of King and Pierce Lanes in the Quad) in 1911. In 1921 they were moved to their current home in Sylvan Grove. Replicas of these columns form the backdrop for our commencement stage. They remind us of our duty to preserve for future generations the priceless legacy of all those who have come before us.

THE GONFALONS

Gonfalons are the banners suspended on crossbars that herald the entrance of each of the University's sixteen schools and colleges. The word derives from 12th century Florence, Italy, where each district had its own unique banner, or gonfalon. The gonfalons became symbols of state and were carried in processions by a chief magistrate or other elected official. Outstanding students are awarded the honor of carrying their school's gonfalon and leading their fellow graduates into the stadium. Our gonfalonieres this year are:

Andre Ye, *College of Arts & Sciences*

David Asokeji, *College of Built Environments*

Mollie Ball, *College of the Environment*

Philip Walczak, *School of Dentistry*

Shayla Chatto, *College of Education*

Annabella Li, *College of Engineering*

Mishti Dhawan, *College of Engineering*

Lindsay Garza, *Foster School of Business*

Mohammad Maqsood, *Foster School of Business*

Vincent Da, *Graduate School*

Elianna Baganov, *Information School*

Jonathan Ng, *Law School*

Rachel Jecker, *School of Medicine*

Grey Mitchell, *School of Nursing*

Tekumalla Manasa, *School of Pharmacy*

Erica Stagg, *School of Public Health*

Chris Braithwaite, *Evans School of Public Policy and Governance*

Alyssa Ledesma, *School of Social Work*

UNIVERSITY OF WASHINGTON A WORLD OF GOOD

2025 COMMENCEMENT

The University of Washington, on the occasion of its one hundred fiftieth commencement, cordially welcomes all those who have come to join in ceremonies honoring the members of the graduating class of 2025.

The University, which was founded in 1861, has grown from modest beginnings in a wilderness society to become one of the world's preeminent research institutions. The more than 600,000 alumni and alumnae who have earned degrees at the University of Washington both reflect and extend its reputation as a global center of innovation and learning, a place where passion for discovery and a deep sense of social equity inspire the development of new knowledge for the common good.

Undergraduate education lies at the core of the University's mission, with sixty-seven percent of all students enrolled as undergraduates. At the same time, the University's exceptional faculty and facilities, the integration of advanced research and undergraduate teaching, and the availability of individualized and interdisciplinary programs, mean that graduates complete their baccalaureates not only with a firm academic foundation, but frequently with notable achievements in their chosen fields.

In graduate and professional education, a renowned faculty of scholars, researchers, artists, and visionaries is educating the next generation of doctors, lawyers, scientists, engineers, teachers, and skilled professionals. University faculty and students often work collaboratively with our region's acclaimed computer science, biotechnology, and aerospace industries to design and create a wide range of innovative technologies for the 21st century. Indeed, the University itself is an engine of economic growth, generating \$21 billion annually in the state of Washington in terms of direct, indirect and induced economic impact. In the most recent Reuters ranking of world universities on innovation, UW was ranked No. 5 overall and retained its position as the most innovative public university in the U.S.

Those who graduate today will take their place among society's foremost leaders in science and the arts, education, business, law, health care, and public service, enriching the cultural vitality and well-being of peoples around the world. To the members of the class of 2025, the University extends its sincere congratulations. Their accomplishment is one in which the University takes deepest pride.

THE MACE AND THE MEDALLION

University of Washington ceremonial occasions begin with the entrance of the University Mace, carried by Joseph Janes, associate professor in The Information School and University Marshal. A mace was originally a weapon used by mounted knights for self-protection. It since has become a symbol of authority indicating that the proceedings to follow have official sanction.

The University Mace bears the inscription: "Presented to the University on the occasion of its Centennial by the University of Washington Alumni Association, 1961." Its triangular headpiece is topped by a silver reproduction of Drumheller Fountain. The three sides bear engravings of the University seal, Denny Hall (the first building on the present campus), and the original University building on the Territorial campus.

The tradition of the president's seal medallion began in 1958, when Dr. Charles E. Odegaard was inaugurated as the University's twenty-fourth president. The seal medallion is worn by the President at official ceremonies, such as commencement.

On one side is the University seal with a facsimile of the four columns from the original territorial University building and the University Motto, *Lux Sit*, meaning "let there be light." On the other side are the words, "Seal of the President of the University."

THE ACADEMIC REGALIA AND FOUNDING ORDER

The academic dress worn by scholars originated in the Middle Ages. When European universities were taking form in the twelfth and thirteenth centuries, the scholars usually were clerics as well, and they adopted garb similar to that of their monastic orders. Buildings were cold and drafty, so caps and warm, floor-length capes with hoods were necessities. As the control of education passed from the churches, the garb was modified in various ways, and there was great diversity in color and style of cap, gown, and hood worn at the different institutions. The custom of wearing academic dress was brought to America in colonial times, but it was not until 1895 that a standardized code of academic dress was established and followed by most colleges and universities in the United States.

Both cap and gown are symbols. According to legend, the privilege of wearing a cap was the initial right of a freed Roman slave. The academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers clothing that could indicate rank or social stratum. At the University of Washington, the bachelor's and master's gowns are black. The matching Oxford cap, or mortarboard, has a long tassel fastened to the middle of the top. The tassel is worn pendant over the left side of the cap. The colors of the tassels or hoods are distinctive of the candidate's school or college.

The doctoral gown at the University of Washington is purple with velvet facing and three bars of velvet on the sleeves. Doctoral degree candidates in Medicine, Law, Dentistry and Pharmacy wear the black professional doctoral gown with black chevrons on the sleeves. Advanced degree (doctoral and master's degree) candidates also wear the academic hood, the traditional garment that signifies high scholarly attainment. The colors of the master's and professional degree hoods are distinctive of the candidate's degree earned. The doctoral hood of bright satin purple and gold reflects the colors of the University of Washington.

Graduates enter the stadium and are presented for degree conferral according to the founding order of the schools and colleges.

The schools and colleges awarding degrees were established in: College of Arts and Sciences, 1861; College of Education, 1878; School of Pharmacy, 1894; School of Law, 1899; College of Engineering, 1901; College of the Environment, 2009 (College of Forest Resources, 1907, School of Fisheries, 1919); Graduate School, 1911; The Information School, 2001 (Graduate School of Library and Information Science, 1911); Foster School of Business, 1914; School of Nursing, 1945; School of Dentistry, 1946; School of Medicine, 1946; College of Built Environments, 2009 (College of Architecture and Urban Planning, 1957); School of Social Work, 1958; Evans School of Public Policy and Governance, 2000 (Graduate School of Public Affairs, 1962); School of Public Health, 1970.

2025 COMMENCEMENT MARSHALS

PRESIDENT'S MEDALISTS

The President's Medal is presented annually by the University of Washington president to graduating seniors who have achieved the most distinguished academic records in their class. On the Seattle campus, one medal is given to a student who has completed at least three-fourths of their degree requirements at the University of Washington. The other is given to a student who entered the University with at least 60 transfer credits from a Washington community college.

This year's medalists are **Gloria Shen**, who is graduating Summa Cum Laude with a Bachelor of Science (Neuroscience) and **Kerry Lyn Petit**, who is graduating Summa Cum Laude with a Bachelor of Arts (Anthropology: Medical Anthropology and Global Health, Anthropology of Globalization).

COMMENCEMENT SPEAKER

As the president of one of the world's great public universities, **Ana Mari Cauce** has led the University of Washington in advancing its mission in four key areas: providing a leading-edge student experience, conducting research and scholarship that has a global impact, upholding the UW's dedication to its public mission and infusing the entire university with a commitment to innovation.

A member of the UW faculty since 1986, Cauce previously served as provost and executive vice president. On Oct. 13, 2015, she was selected by the UW Board of Regents to become the UW's 33rd president.

Throughout her career, Cauce has championed access to higher education, through the Husky Promise, which provides full tuition to eligible Washington students who otherwise could not attend college, by engaging students in honest discussions about race and equity, and through continuing efforts to create a more just and diverse community.

The UW also views innovation as an imperative, and in June 2015 Cauce announced the launch of the Global Innovation Exchange. A partnership between the UW and Tsinghua University, with foundational support from Microsoft, GIX is educating the next generation of innovators through a project-based, globally focused curriculum available nowhere else.

Raised in Miami after emigrating with her family from Cuba, Cauce earned a B.A. in English and psychology from the University of Miami and a Ph.D. in psychology, with a concentration in child clinical and community psychology, from Yale University.

During the course of her career at the UW, Cauce has been appointed to various leadership positions, including director of the UW Honors Program, chair of American Ethnic Studies, chair of Psychology, executive vice provost and dean of the College of Arts and Sciences. In 2011 Cauce was named provost and executive vice president, responsible for overseeing the education, research and service missions of the university's schools, colleges and other academic units.

For her teaching, scholarship and advocacy, Cauce has received numerous awards, including the Dalmas Taylor Distinguished Contribution Award, the Luis Fernando Esteban Public Service Award, the James M. Jones Lifetime Achievement Award of the American Psychological Association, the Grace Hopper Exemplary Leadership Award and the Distinguished Contribution Award from the Society for Community Research and Action. In 1999 she was awarded the Distinguished Teaching Award, the highest honor the University of Washington gives to faculty members for their work with students in and outside the classroom. In 2020, she was elected to the American Academy of Arts and Sciences, and in 2022, she was elected to the National Academy of Medicine in recognition of her leadership in health education, research and service systems as well as her own pioneering research in behavioral health.

As a professor of Psychology and American Ethnic Studies, with secondary appointments in the Department of Gender, Women and Sexuality Studies and the College of Education, Cauce has maintained an active research program, focusing on adolescent development, and advocated for women and underrepresented minorities to pursue careers in science, technology, engineering and mathematics.

BACCALAUREATE HONORS

Baccalaureate Honors are based on the entire University of Washington scholastic record of each degree candidate. For members of the graduating class of 2025, the distinction of *summa cum laude* represents the top one-half of one percent (.5%) of the graduating students, *magna cum laude* the next three percent (3.0%) and *cum laude* the next six and one-half percent (6.5%). These honors are awarded to those who have completed not less than 90 credits at this institution. A single gold cord is worn by graduates who have earned these honors.

A baccalaureate honors designation for a June candidate is considered tentative and is dependent upon the student satisfactorily completing the spring quarter. June candidates are signified by an asterisk.

RISE UP WITH PRIDE FOR WASHINGTON

Rise up with pride for Washington
For purple and for gold
From far and wide we meet as one
As Huskies proud and bold

Lyrics by Catherine Henderson
Class of 2008
Music by Bill Conti

Chorus

Washington we hail to thee
Honor, truth, integrity
Forever shine from lake to shore
Your light upon us ever more.

Rise up with pride for Washington
Together hand in hand
We will proclaim our loyalty
In song throughout the land

Chorus

Washington we hail to thee
Honor, truth, integrity
Forever shine from lake to shore
Your light upon us ever more.
